The sins of America have become so great:
So much violence, killing and hate.
Lord in everything we are trying to put You out.
Serving You is what America is supposed to be all about.
Will one day America for her sins have to pay?
I see no repentance, but sin continues day after day.
America must repent before God will forgive.
Will America ever again for You live?
Has America passed the point of no return?
Has America reached the place that God we now spurn?
We must not continue down the path we are on, Else judgment come, and the time to repent is gone.
How can our lawmakers say "yes" to what God has said "no"?
How can America like this continue to go?
"In God we trust" is what our coins say;
We have left that trust, Lord, America has lost her way.
Has the very thing America stood for become a sham?
We need to teach about Christ the Lamb.
We must return to God and repent,
Or, the freedom we now enjoy from us be rent.
There is only one way this great land can stand:
Put it back where it belongs, in God's hand.
God has blessed America like no other nation.
How could we have let slip away God and our relation?
What will happen to America if we continue in sin?
When we take God out of our affairs, we will not win.
America must repent and keep its resolution. God is the answer; He is America's solution.
Church and State,
How can the two you separate?
God must be in everything, He must be in all.
The one He is left out of is headed for a fall.
